MORE THAN 250 PROFESSIONALS WITH PASSION

It is people, with their professionalism and dedication that make a great company. This profound conviction has always guided Pizzato Elettrica in their choice of employees and partners. Today, Giuseppe and Marco Pizzato lead a tireless team providing the fastest and most efficient response to the demands of the market. This team has grown over the last 10 years and has achieved a considerable increase in sales in all the countries where Pizzato Elettrica is present.

The various strategic sectors of the business are headed by professionals with significant experience and expertise. Many of these people have developed over years with the company. Others are experts in their specific field and have integrated personal experience with the Pizzato Elettrica ethos to extend the company's capability and knowledge.

From the design office to the technical assistance department, from managers to workers, every employee believes in the company and its future. Pizzato Elettrica employees all give the best of themselves secure in the knowledge they are the fundamental elements of a highly valuable enterprise.

100%
MADE IN
ITALY

100% MADE IN ITALY

Pizzato Elettrica is one of the leading European manufacturers of position switches, microswitches, safety devices, safety modules, foot switches, control and signalling devices, and devices for lifts.

An entrepreneurial company such as Pizzato Elettrica bases its foundations on a solid and widely shared value system. The pillars that form the basis of the company's work have remained constant, and constitute the fundamental guiding principles for all company activities.

PASSION FOR QUALITY

Passion for product quality, orientation towards excellence, innovation, and continuous development, represent the key principles of Pizzato Elettrica's everyday work.

Anyone using Pizzato Elettrica's products does so in the certainty that these devices are of certified quality, since they are the result of a process that is scrupulously controlled at every stage of the production.

The company's goal is to offer the market safe, reliable, and innovative solutions.

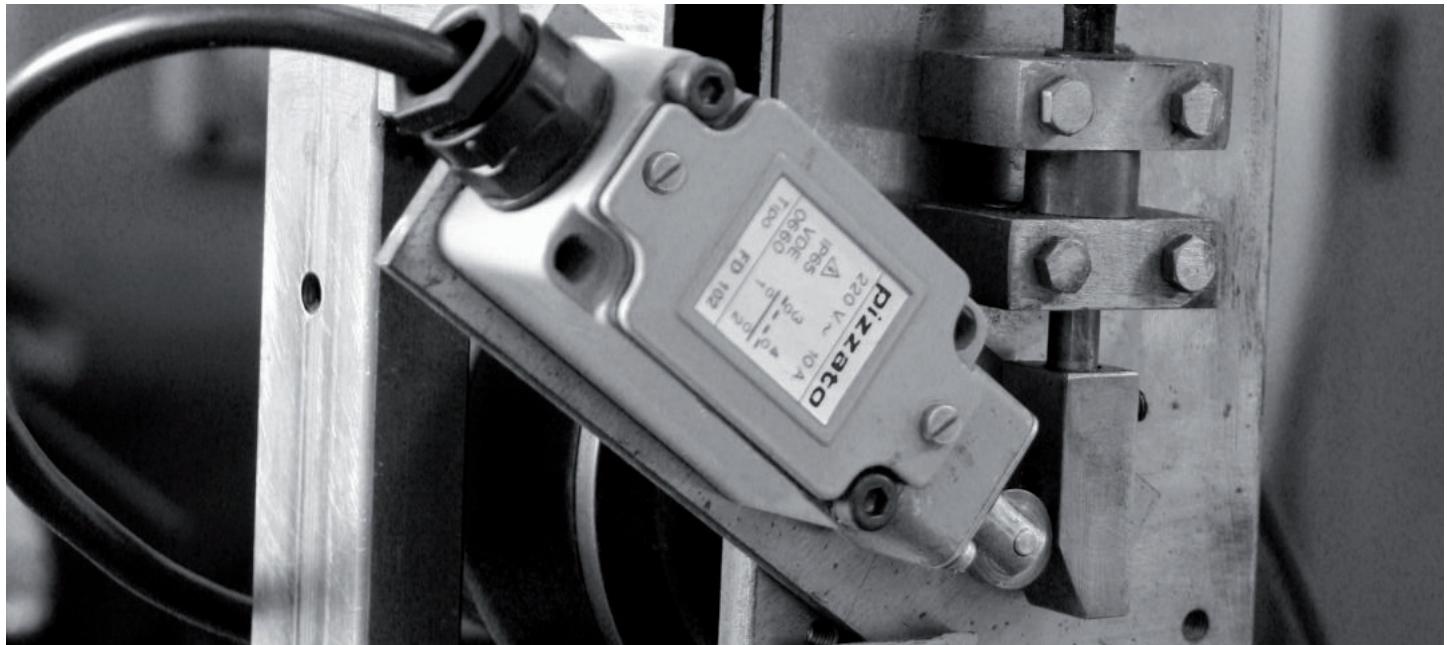

CARE FOR THE CUSTOMER

In order to be successful, a product must respond to the specific needs of those who will use it. Market developments must be carefully monitored in order to understand, in advance, which new applications will prove themselves truly useful. This is why Pizzato Elettrica has always cultivated close synergies with the companies that have chosen it as a supplier, using this continuous dialogue to identify the potential developments of the own product range in order to make it highly flexible, complete and capable to respond to the most diverse needs.

100% MADE IN ITALY

All Pizzato Elettrica products are designed, developed, and tested entirely at the company plants in Marostica, in the province of Vicenza in Italy. The company is thus able to meet specific customer requirements at all times, by offering a comprehensive range of products and technologically advanced solutions.

1984: AN ENTREPRENEURIAL STORY BEGINS

1984

The company Pizzato di Pizzato B. & C. snc. manufacturer of position switches is founded.

1988

The company becomes a limited liability partnership, and is renamed Pizzato Elettrica, a brand shortly destined to become renowned and valued nationwide. Also in the year 1988, the first company-owned plant geared towards mechanical processing was built. By the end of the decade, thanks to the development of quality products and the experience built on the Italian market, Pizzato Elettrica turns to the international market.

1995

Building of the second plant geared towards the moulding of plastic materials. Development of the position switch range continues in parallel. Start of significant years in terms of safety devices planning. The safety sector becomes a key sector to the company.

1998

Construction of the third plant, housing the assembly department.

2002

New millennium starts with quality certifications: achievement of the ISO 9001:2000 certification. Launching of the first safety modules. Construction of the new headquarters and logistics site; currently the company head office. Continued expansion of the industrial safety and automation product range.

2007

Pizzato Elettrica faces its first generational change: Giuseppe and Marco Pizzato take over the company directorship.

2010

Extension of Pizzato Elettrica product portfolio, with the launch of the innovative EROUND line consisting of control and signalling devices. This product range accompanies position switches and safety devices, thus offering complete solutions to customers.

2012

Introduction of Gennis Studio, the first software produced by Pizzato Elettrica. A graphic development environment for the creation, simulation, and debugging of programs that can be integrated in the Gennis line modules.

2013

Foundation of first subsidiary of Pizzato Elettrica, Pizzato Deutschland GmbH, in Germany.

2014

A new production facility dedicated to switches and automatic machines is opened, spanning a surface area of 6000 m².

2016

Foundation of second subsidiary of Pizzato Elettrica, Pizzato France SARL, in France.

The new NS series of safety switches with electromagnets and RFID technology is introduced, fruit of the company's experience, spanning more than thirty years in the field of industrial safety. To date it is the state of the art in its industry.

2017

The company continues to expand and now includes an additional production facility, the new location of the offices in the sales network. The company obtains quality certification in accordance with the most recent version of the ISO 9001 standard of 2015.

In Spain, the third Pizzato Elettrica subsidiary is founded: Pizzato Iberica SL.

2018

Foundation of fourth subsidiary of Pizzato Elettrica, Pizzato USA Inc, in the United States.

Today

Giuseppe and Marco Pizzato lead a company in constant growth in terms of new product launches, number of employees (more than 250 employees at present), turnover, and new markets. Pizzato Elettrica is continuing its new product internationalisation and development process.

86,000,000 PARTS SOLD WORLDWIDE

Pizzato Elettrica's product catalogue contains more than 7,000 articles, with more than 1,500 special codes developed for devices personalised according to clients' specific needs.

Pizzato Elettrica devices can be grouped, according to typology, into three main macro-categories.

POSITION SWITCHES

Pizzato Elettrica position switches are daily installed in every type of industrial machinery all over the world for applications in the sector of wood, metal, plastic, automotive, packaging, lifting, medicinal, naval, etc.

In order to be used in a such wide variety of sectors and countries, Pizzato Elettrica position switches are made to be assembled in a lot of configurations thanks to the various body shapes, dozens of contact blocks, hundreds of actuators and materials, forces, assembling versions.

Pizzato Elettrica can offer one of the widest product range of position switches in the world. Moreover, the use of high quality materials, high reliability technologies (e.g. twin bridge contact blocks) as well as the IP67 protection degree make this range of position switches one of the most technologically evolved.

SAFETY DEVICES.

The company Pizzato Elettrica has been one of the first Italian companies developing dedicated items for this sector, creating and patenting dozens of innovative products, thus becoming one of the main European manufacturers of safety devices.

The vast range of products aimed specifically at the safety of machinery, fully designed and assembled at the Marostica (VI) company premises, includes not only more traditional safety switches with separate actuator (with or without locking mechanism) and hinge switches but also state-of-the-art anti-tampering devices with RFID technology, such as the ST series sensors, and NG and NS series locking devices.

The product range is complemented by safety handles for guards, with the innovative P-KUBE Krome model whose handle can be illuminated with multicolour signalling LEDs, as well as by the CS series safety modules, available in single function versions, or user-programmable with the use of the Gennis Studio software; fully implemented by Pizzato Elettrica and distributed with a free licence.

MAN-MACHINE INTERFACE.

Pizzato Elettrica's control and signalling devices of the EROUND line are designed for the use in the man-machine interface sector. Thanks to the elegant design, the care for details and the elegance of the product combined with its maximum safety and reliability, this series is one of the most complete and cutting-edge on the market.

In order to satisfy its customers' needs and requests, Pizzato Elettrica offers a lot of accessories purposely designed not only to complete its wide range of products, but also to help device installation on machineries.

12 MILLION CERTIFIED PRODUCT CODES

A simple brand isn't enough: the company is aiming for the Pizzato Elettrica brand to be widely recognised as a synonym for absolute quality and certainty.

A result that has been reached and consolidated over the years, updating and expanding the series of certifications obtained from the most important Italian and international control organisations. Product quality is assessed by five accredited external bodies: IMQ, UL, CCC, TÜV SÜD, EAC. These bodies lay out high technical and qualitative standards for the company to achieve and maintain, verified yearly with several inspections: these are performed, without prior notice, by qualified inspectors, who extract samples of products and materials destined for sale from plants, or from the market directly, to subject them to apposite tests.

- **CE MARK.** All Pizzato Elettrica products bear the CE marking in conformity with the European Directives in force.
- **ISO 9001 CERTIFICATION.** The company's production system is compliant with the international ISO 9001 standard, in its most recent 2015 revision. The certification covers all of the company's plants and their production and managerial activities: entry checks, technical, purchasing and commercial department activities, manufacturing

operations assessments, final pre-shipping product tests and checks, equipment reviews and the management of the metrological lab.

The Pizzato Elettrica quality management system ensures that all sensitive company processes – from component design to implementation, from materials provisioning to verification of non-compliant products – are carried out according to the procedures laid down, with the aim of providing our customers with continuously improved and reliable products.

- **CERTIFICATION OF COMPANY QUALITY SYSTEMS.** Pizzato Elettrica has obtained the certificate of compliance with the UNI EN ISO 9000 regulations in force in Italy and abroad. It is issued by a recognised independent body that guarantees the quality and reliability of the service offered to clients worldwide.
- **CSQ, CISQ AND IQNET.** The CSQ system is part of the CISQ (Italian Certification of Quality Systems) federation, which consists of the primary certification bodies operating in Italy in the various product sectors. CISQ is the Italian representative body within IQNet, the biggest international Quality Systems and Company Management certification network, which is adhered to by 25 certification organs in as many countries.

GLOBAL SUBSIDIARIES

The two-year period from 2017 - 2018 saw the birth of two new commercial subsidiaries: Pizzato Iberica SL and Pizzato USA Inc. In addition to the Spanish and American subsidiaries, the German subsidiary, Pizzato Deutschland GmbH, was founded in 2013, and the French subsidiary, Pizzato France Sarl, was founded in 2016.

The purpose of these subsidiaries is to coordinate and support the activities of representative agencies, or distributors, active in the various countries, providing the best possible management of marketing and commercial activities, with the ultimate aim of increasing brand visibility, and the penetration ability of Pizzato Elettrica products in markets considered strategic.

Products from Pizzato Elettrica are currently used in over 80 countries: The commercial support network, which is made up of local professional and experienced representatives, combined with the productive capacity of the headquarters in Italy, are the basis for the formation of a group that, together with its partners, has all the necessary requirements to become one of the most important companies in the field of automation and industrial safety.

TECHNICAL AND SALES ASSISTANCE

TECHNICAL DEPARTMENT

The Pizzato Elettrica technical department provides direct technical and qualified assistance in Italian and English, helping in this way the customers to choose the suitable product for their own application explaining the characteristics and the correct installation.

Office hours: Monday to Friday
08 am - 12 pm / 02 pm - 06 pm CET
Telephone: +39.0424.470.930
E-mail: tech@pizzato.com
Spoken languages: |

SALES DEPARTMENT

Among the strengths in the company relationship with the commercial network, the direct assistance guaranteed in five languages: Italian, English, French, German and Spanish. A service that confirms Pizzato Elettrica quality and attention to the needs of customers from around the world.

To order a product of the FX, FM or FZ series, replace FR with FX, FM or FZ in the codes shown above.

Example: FR 601-W3M2 → FM 601-W3M2

Position switches with swivelling lever without actuator, see page 19

Pizzato Elettrica has developed a reset device code W3 to make perfectly simultaneous the actuator and the contact block tripping. This device is a module that is mounted between the body and the head of the switch that can be rotated independently from the head. The reset device has the following advantages:

- Contact blocks with snap action are no more necessary because the tripping movement is executed by the reset device itself;
- Can be rotated independently from the head ensuring maximum flexibility during installation;
- Can be delivered with two different actuating forces: standard (W3) and increased (W4) for vibration applications;
- Mechanical endurance: 1 million operating cycles.

Switches for special applications

FR series with electronic contact block

Technopolymer housing □

One M20x1.5 conduit entry

Protection degree IP67

Marks: CE EAC

Ambient temperature: -25°C ... +80°C

PNP switching outputs (1NO+1NC)

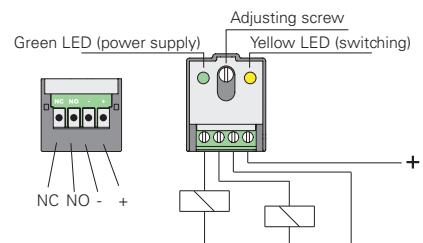

FR E121-M2 FR E155-M2 FR E138-M2

For separate
actuators see
page 19

- Rated voltage (Ue): 10 ... 30 Vdc
- Rated current (Ie): 200 mA
- Adjustable switching point
- Bounce-free output signals
- Two static outputs, 1NO and 1NC

- Reduced actuating force
- Signal LEDs for power supply and switching
- Minimum differential travel

Modular foot switches - PC series

Using the bonding kits (VF KIT20 or VF KIT30), individual foot switches can be joined in multiple combinations.

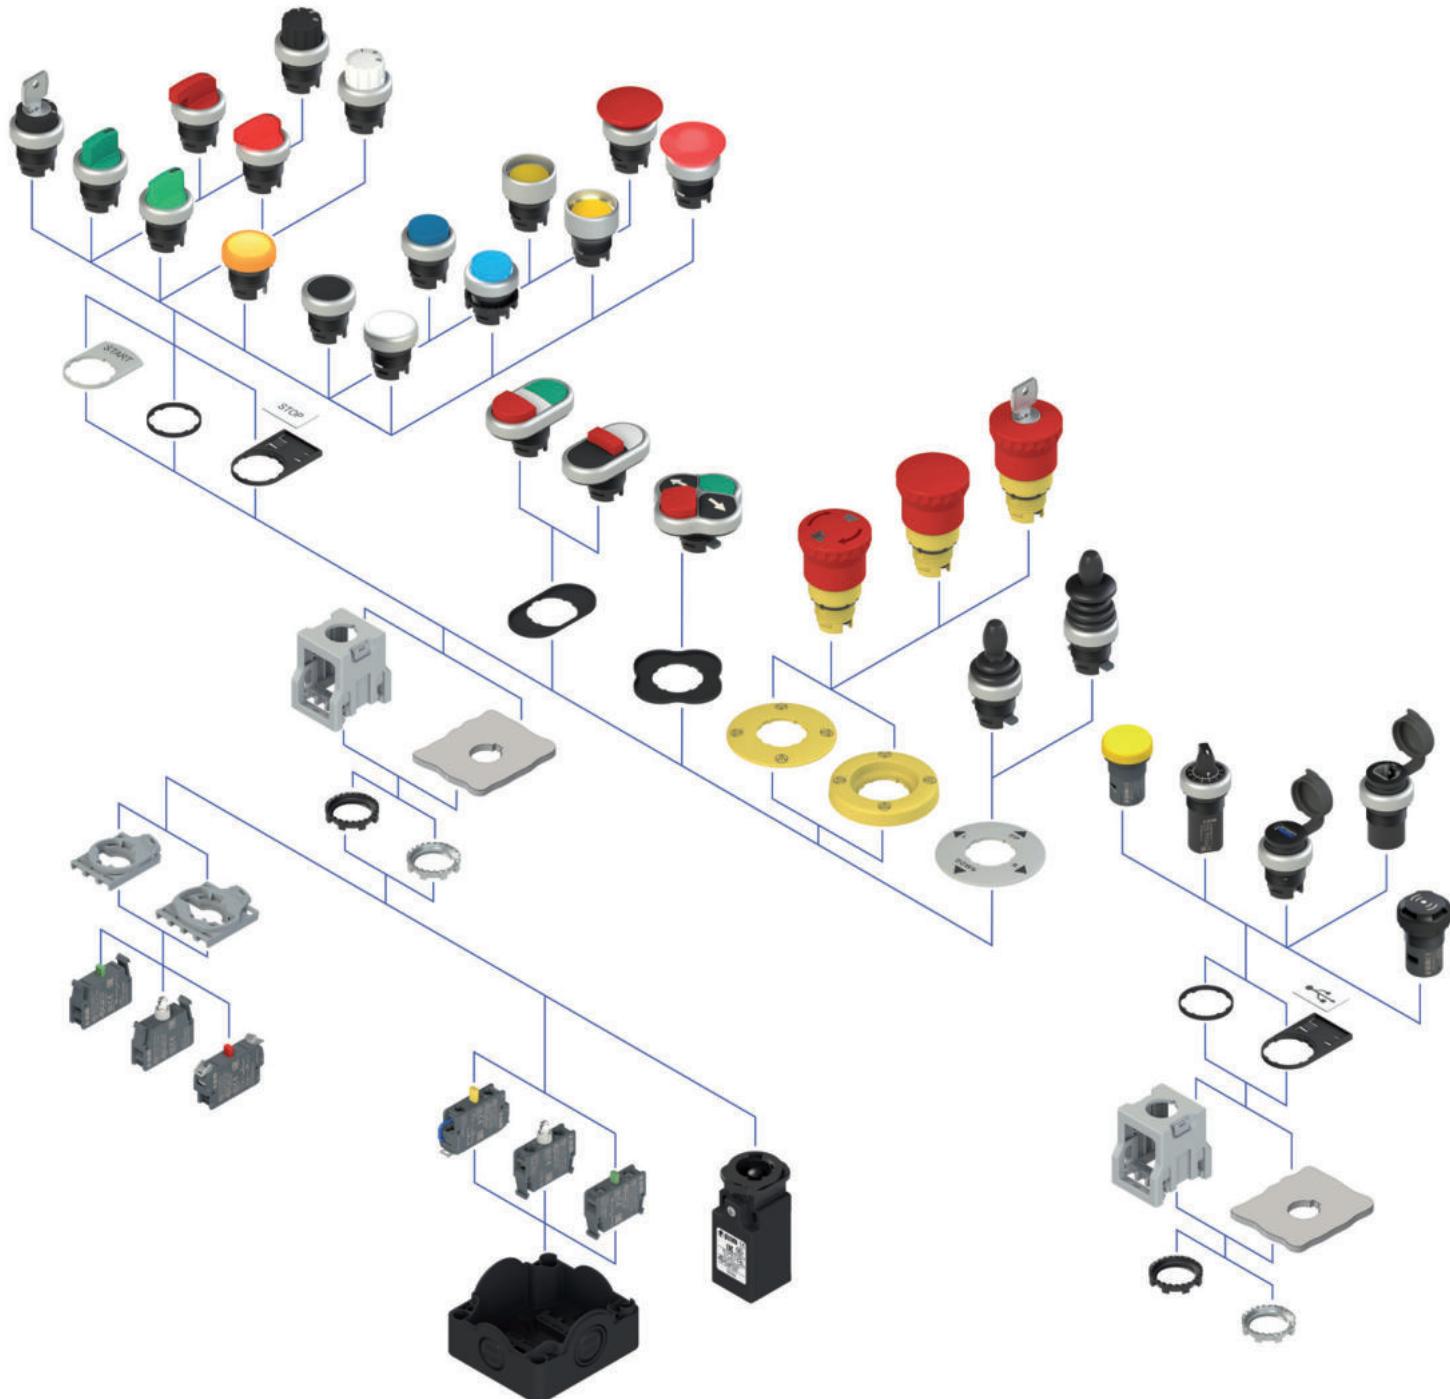

Pizzato Elettrica's innovative EROUND control and signalling devices combine elegance and functionality in a single product.

The ergonomic design allows a comfortable and easy use of the devices. The details have been carefully designed giving the products a pleasant appearance and making them suitable for applications also on well designed machinery.

The devices of the EROUND line, thanks to their design and functionality, guarantee maximum reliability, and are suitable for any type of application.

Most devices, not only have an IP67 protection degree, but have also passed the test proving their IP69K protection degree according to the prescriptions established by the ISO 20653 standard.

| 47 kΩ | 1 W | E6 1DM047K-D119 |
| 100 kΩ | 0.9 W | E6 1DM100K-D119 |
| 470 kΩ | 0.23 W | E6 1DM470K-D119 |

For ordering a potentiometer with black bezel
replace 9 with 1 in the respective article code. Example:
E6 1DM001K-D319 → E6 1DM001K-D311

| Resistance | Max power | Article |
|------------|-----------|-----------------|
| 1 kΩ | 0.5 W | E6 1DM001K-D319 |
| 2.2 kΩ | 0.5 W | E6 1DM02K2-D319 |
| 4.7 kΩ | 0.5 W | E6 1DM04K7-D319 |
| 10 kΩ | 0.5 W | E6 1DM010K-D319 |
| 22 kΩ | 0.5 W | E6 1DM022K-D319 |
| 47 kΩ | 0.5 W | E6 1DM047K-D319 |

Buzzers

Buzzers E6 IS series

Protection degree: IP40 (perforated lens)
IP67 (perforation-free lens)
Ambient temperature: -20°C ... +70°C
Marks:

| Sound type | Supply voltage | Perforated lens | dB | Perforation-free lens | dB |
|----------------|----------------|-----------------|----|-----------------------|----|
| Continuous | 12 Vac/dc | E6 1IS5A1CV1B | 90 | E6 1IS5B1CV1B | 75 |

| Pulsing | 12 Vac/dc | E6 1IS5A1PV1B | 90 | E6 1IS5B1PV1B | 75 |
| | 24 Vac/dc | E6 1IS6A1PV1B | 95 | E6 1IS6B1PV1B | 80 |

Single contact blocks

E2 CP/CF series single contact blocks

Protection degree IP20
Ambient temperature: -40°C ... +80°C

Positive opening contacts acc. to IEC 60947-5-1
Marks:

Packs of 10 pcs.

| Contact block | Panel mounting | | | Base mounting | |
|------------------------------|------------------|------------------------------------|-------------------|------------------|------------------------------------|
| | Screw connection | PUSH-IN spring-operated connection | Solder connection | Screw connection | PUSH-IN spring-operated connection |
| 1NC, slow action | E2 CP01G2V1 | E2 CP01G2M1 | E2 CP01G2S0 | E2 CF01G2V1 | E2 CF01G2M1 |
| 1NO, slow action | E2 CP10G2V1 | E2 CP10G2M1 | E2 CP10G2S0 | E2 CF10G2V1 | E2 CF10G2M1 |
| 1NC, slow action, delayed | E2 CP01K2V1 | E2 CP01K2M1 | E2 CP01K2S0 | E2 CF01K2V1 | E2 CF01K2M1 |
| 1NO, slow action, early make | E2 CP10L2V1 | E2 CP10L2M1 | E2 CP10L2S0 | E2 CF10L2V1 | E2 CF10L2M1 |

E2 CP/CF series single self-monitored contact blocks

Protection degree IP20
Ambient temperature: -40°C ... +80°C

Positive opening contacts acc. to IEC 60947-5-1
Marks:

Packs of 5 pcs.

| Contact block | Panel mounting Screw connection | Contact block | Base mounting in position 3 Screw connection |
|---|------------------------------------|---|---|
| Slow action contacts 1NC self-monitored | E2 CP01S2V1 2.3 0.8 0 1.1 5 | Slow action contacts 1NC self-monitored | E2 CF01S2V1 2.3 0.8 0 1.1 5 |

Note: Ideal in safety applications combined with emergency stop buttons E2•PE*****; they automatically detect any detachment of the contact block from the emergency stop button.

4M Double contact blocks

E2 CP/CF series double contact blocks

Protection degree IP20
Ambient temperature: -40°C ... +80°C

Positive opening contacts acc. to IEC 60947-5-1
Marks:

Packs of 5 pcs.

| Contact block | Panel mounting Screw connection | Contact block | Panel mounting Screw connection |
|------------------------------|------------------------------------|------------------------------|------------------------------------|
| Slow action contacts 1NO+1NC | E2 CP11G2V1 0 2.5 5 1.1 | Slow action contacts 1NO+1NC | E2 CF11G2V1 0 2.5 5 1.1 |
| Slow action contacts 2NO | E2 CP20G2V1 | Slow action contacts 2NO | E2 CF20G2V1 |
| Slow action contacts 2NC | E2 CP02G2V1 0 1.1 5 | Slow action contacts 2NC | E2 CF02G2V1 0 1.1 5 |

E2 LP/LF series
LED units

Protection degree IP20

Three supply voltages:

12 ... 30 Vac/dc, 120 Vac, 230 Vac

Ambient temperature: -25°C ... +70°C

Marks:     Packs of **5 pcs.**

| LED colour | Available device colour | Panel mounting | | | | | | | | |
|---|-------------------------|-------------------|------------|------------|------------------------------------|------------|------------|-------------------|------------|------------|
| | | Screw connection | | | PUSH-IN spring-operated connection | | | Solder connection | | |
| | | Operating voltage | | | | | | | | |
| | | 12 ... 30 Vac/dc | 120 Vac | 230 Vac | 12 ... 30 Vac/dc | 120 Vac | 230 Vac | 12 ... 30 Vac/dc | 120 Vac | 230 Vac |
|  white | white / yellow | E2 LP1A2V1 | E2 LP3A2V1 | E2 LP4A2V1 | E2 LP1A2M1 | E2 LP3A2M1 | E2 LP4A2M1 | E2 LP1A2S0 | E2 LP3A2S0 | E2 LP4A2S0 |
|  red | red | E2 LP1A3V1 | E2 LP3A3V1 | E2 LP4A3V1 | E2 LP1A3M1 | E2 LP3A3M1 | E2 LP4A3M1 | E2 LP1A3S0 | E2 LP3A3S0 | E2 LP4A3S0 |

P-KUBE 1 safety handles

Can be used with switches from the FD and FG series
 Self-centring metal pin
 Integrated padlockable lock out device
 Thanks to the slotted brackets the handle can be adjusted on 3 different axes
 Suitable for use with hinged and sliding doors, either with right or left closing
 Switch and actuator not included in scope of delivery

For FG series switches

For FD series switches

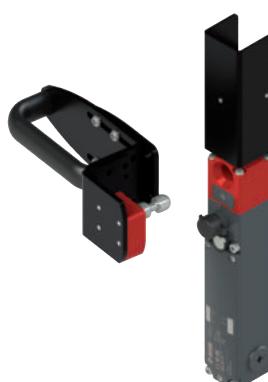

VF AP-P11B-200P

VF AP-P11A-200P

P-KUBE 2 safety handles

Can be used with switches from the NG series
 Thanks to the slotted brackets the handle can be adjusted on 3 different axes
 Suitable for use with hinged and sliding doors, either with right or left closing
 Optional lock out device
 Switch and actuator not included in scope of delivery

With lock out device

AP G1A-111P

AP G0B-111P

P-KUBE Fast safety handles

Can be used with switches from the FD and FG series
 Compact, lightweight solution
 Internal lever for emergency escape
 Integrated padlockable lock out device
 Suitable for use with hinged and sliding doors, either with right or left closing
 Switch not included in scope of delivery

For FG series switches

For FD series switches

VF AP-S13BP-300

VF AP-S13AP-301

P-KUBE Super safety handles

Can be used with switches from the NG series
 Suitable for use in particularly demanding work environments
 Dual centring pin
 Integrated padlockable lock out device
 Thanks to the slotted brackets the handle can be adjusted on 3 different axes
 Suitable for use with hinged and sliding doors, either with right or left closing
 Switch and actuator not included in scope of delivery

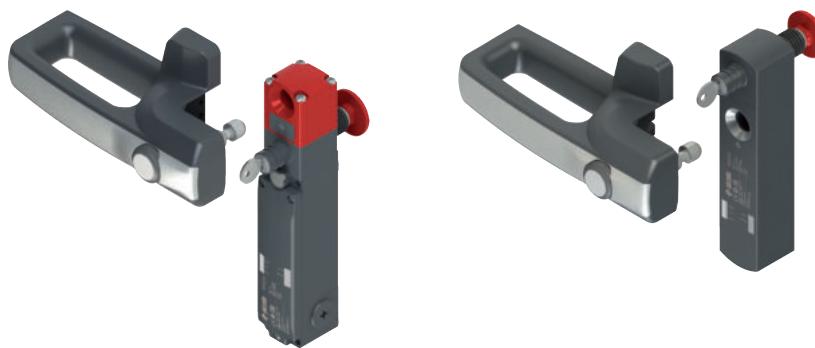

For NG series switches

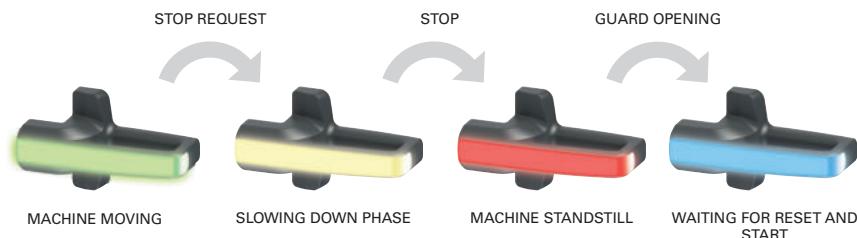

AP G2C-800P

P-KUBE Krome safety handles

Can be used with switches from the NS and NG series
 Technopolymer grip
 Satin chrome and illuminated white finishes
 Control button integrated into grip
 Grip illumination with RGB LED
 Internal metal fixing plates
 Suitable for use with hinged and sliding doors, either with right or left closing, same individual product code.
 Supply voltage 24 Vdc
 Protection degree IP65
 Optional lock out device
 Switch and actuator not included in scope of delivery

Integrated multicoloured illumination with RGB LEDs:

With satin chrome grip, for NS series switches

With satin chrome grip, for NG series switches

With illuminated grip (white), for NS series switches

With illuminated grip (white), for NG series switches

Application example

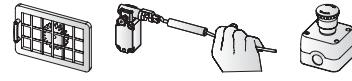

Safety modules

The clear objectives in the development of the CS series safety modules were safety and reliability. The design, development and production of these products have been approached with the passion for quality that characterises Pizzato Elettrica. During the design phase, the components were deliberately oversized and the circuit diagrams were verified by third-party and independent bodies. Quality was the underlying factor for choosing the components. Basic elements, such as the relays with forcibly guided contacts, were chosen from leading manufacturers. The production process, done entirely in-house by Pizzato Elettrica, is controlled by a functional check of 100% of all products. Every single part produced is tested in a computerized testing station that, only if the product passes all the electrical tests, prints the label of the safety module, identified by a precise serial number. Particular attention has been paid to the connection type. Here, the customer can choose between fixed terminals, a removable connector, screw connections or spring connections. Additionally, the product range includes different supply voltages with wide tolerances of the nominal values, so as to be compatible for use in less industrialized countries as well.

Safety modules for emergency stops and end position monitoring for movable guards

The CS MP series programmable safety modules are the result of Pizzato Elettrica's long experience in the machine safety sector. A CS MP series module is a programmable safety device, which allows several safety functions to be carried out simultaneously. This product series has been developed for manufacturers of machines with a low to average number of safety functions. As an indication, these modules can manage applications which are equivalent to the functions carried out by 3 to 4 traditional electromechanical safety modules, up to circuits with dozens of inputs.

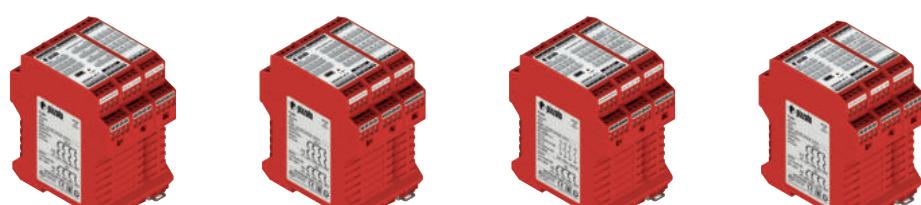

The **Gemnis Studio** program is a graphic development environment for the creation, simulation and debugging of programs that are uploaded to the corresponding modules of the Gemnis family. **This software is licensed free of charge to users wishing to program these modules, subject to prior registration at www.gemnis.com**

For the latest news visit the website www.gemnis.com

An increasing number of users requires products which carry out several safety functions without needing the complex management of a safety PLC or the complex wiring of many traditional safety modules. Such problems arise mainly when the safety functions are typically greater than 3 or 4, or when managing a safety PLC software (software purchase, training courses, programming of all modules, software management and filing, updates etc.) turns out to be too great an overhead in relation to problem complexity. With the CS MF series of Gennnis, Pizzato Elettrica offers a series of electronic modules which are pre-programmed for specific customer applications or for generic safety macro-functions commonly used in industrial contexts.

The General Catalogue Safety (available from www.pizzato.com) lists some of the pre-programmed products for generic macro-functions commonly used in the industrial sector. These products are available for individual purchase. Any customer requiring a product pre-programmed to their particular specification can contact the Pizzato Elettrica technical department (minimum volumes are requested). All Gennnis series products are able to provide circuit solutions at SIL 3 (EN 62061), PL e (EN 13849) or category 4 (EN 954-1) levels.

Field wireable M12 male connectors

Technopolymer connector body.
Gold-plated contacts.
Screw terminals for cable screw fittings.
Protection degree IP67.

| Article | Description |
|--------------|---|
| VF CCMP5DM04 | Field wireable M12 male connector, 5-pole, straight, for Ø 4 ... Ø 6.5 mm multipolar cables |
| VF CCMP8DM04 | Field wireable M12 male connector, 8-pole, straight, for Ø 4 ... Ø 7 mm multipolar cables |

Field wireable M12 female connectors

Technopolymer connector body.
Gold-plated contacts.
Screw terminals for cable screw fittings.
Protection degree IP67.

| Article | Description |
|--------------|---|
| VF CBMP4DM04 | Field wireable M12 female connector, 4-pole, straight, for Ø 4 ... Ø 6.5 mm multipolar cables |

M12 terminating plugs for series connections

Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

| Article | Description |
|------------|--|
| VF CY100P0 | M12 terminating plugs for series connections, 4-pole |

M12 connector, Y-shaped, for series connections with 150 mm cable length

Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

| Article | Description |
|------------|--|
| VF CY201P0 | M12 connector, Y-shaped, for series connections with 150 mm cable length |

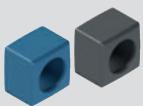

M12 connector, Y-shaped, for series connections without cable

Polyurethane connector body.
Protection degree IP67.
Gold-plated contacts.
Self-locking ring nut.

| Article | Description |
|------------|---|
| VF CY203P0 | M12 connector, Y-shaped, for series connections without cable |

Tampering protection for M12 connectors

Tampering protection for M12 connectors

These tampering protections are composed of two identical snap-on shells. They are applied to the device connectors, thereby making them inaccessible. The shells can only be removed by breaking them. Thus, any attempt to tamper with them will be immediately evident.

Packs of **10 pcs.**

| Article | Description |
|----------|--|
| VF PC1A9 | Tampering protection for device connectors - grey |
| VF PC2A9 | Tampering protection for male-female connectors - grey |
| VF PC1B6 | Tampering protection for device connectors - blue, detectable |
| VF PC2B6 | Tampering protection for male-female connectors - blue, detectable |

LED signalling lights

Signalling lights

These LED signalling lights are used for signalling that an electric contact has changed its state inside the switch. They can be installed on switches by screwing them on one of the conduit entries not used for electric cables.

- Protection degrees IP67 and IP69K
- Ambient temperature -25 ... +70°C
- Push-in type spring-operated connection system
- Body with M20x1.5 thread

Packs of **5 pcs.**

| Article | Description |
|-------------|-------------------|
| VF SL1A2PA1 | White, 24 Vac/dc |
| VF SL1A3PA1 | Red, 24 Vac/dc |
| VF SL1A4PA1 | Green, 24 Vac/dc |
| VF SL1A5PA1 | Yellow, 24 Vac/dc |

Fixing screws

Torx safety screws

Pan head screws with Torx fitting and pin, stainless steel.

Use a thread locker where required for applications acc. to EN ISO 14119.

Packs of **10 pcs.**

| Article | Description |
|----------------|--|
| VF VAM4X10BX-X | M4x10 screw, with Torx T20 fitting, AISI 304 |
| VF VAM4X15BX-X | M4x15 screw, with Torx T20 fitting, AISI 304 |
| VF VAM4X20BX-X | M4x20 screw, with Torx T20 fitting, AISI 304 |
| VF VAM4X25BX-X | M4x25 screw, with Torx T20 fitting, AISI 304 |
| VF VAM4X30BX-X | M4x30 screw, with Torx T20 fitting, AISI 304 |
| VF VAM5X10BX-X | M5x10 screw, with Torx T25 fitting, AISI 304 |
| VF VAM5X15BX-X | M5x15 screw, with Torx T25 fitting, AISI 304 |
| VF VAM5X20BX-X | M5x20 screw, with Torx T25 fitting, AISI 304 |
| VF VAM5X25BX-X | M5x25 screw, with Torx T25 fitting, AISI 304 |
| VF VAM5X35BX-X | M5x35 screw, with Torx T25 fitting, AISI 304 |
| VF VAM5X45BX-X | M5x45 screw, with Torx T25 fitting, AISI 304 |

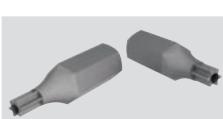

OneWay safety screws

Pan head screws with OneWay fitting in stainless steel. This screw type cannot be removed or tampered with using common tools. Ideal for fixing safety device actuators in accordance with EN ISO 14119.

Packs of **10 pcs.**

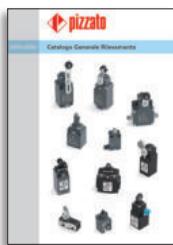

| Article | Description |
|----------------|--|
| VF VAM4X10BW-X | M4x10 screw, with OneWay fitting, AISI 304 |
| VF VAM4X15BW-X | M4x15 screw, with OneWay fitting, AISI 304 |
| VF VAM4X20BW-X | M4x20 screw, with OneWay fitting, AISI 304 |
| VF VAM4X25BW-X | M4x25 screw, with OneWay fitting, AISI 304 |
| VF VAM5X10BW-X | M5x10 screw, with OneWay fitting, AISI 304 |
| VF VAM5X15BW-X | M5x15 screw, with OneWay fitting, AISI 304 |
| VF VAM5X20BW-X | M5x20 screw, with OneWay fitting, AISI 304 |
| VF VAM5X25BW-X | M5x25 screw, with OneWay fitting, AISI 304 |

Bits for Torx safety screws

Bits for safety screws, with 1/4" connection.

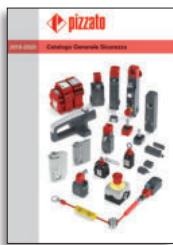

| Article | Description |
|------------|--|
| VFVAIT1T20 | Bits for M4 screws with Torx T20 fitting with safety pin |
| VFVAIT1T25 | Bits for M5 screws with Torx T25 fitting with safety pin |
| VFVAIT1T30 | Bits for M6 screws with Torx T30 fitting with safety pin |
